

United States District Court
District of Oregon

Notice of Electronic Service of Court Orders, Schedules
and Other Materials Begins May 3, 2004

Beginning May 3, 2004, the U.S. District Court District of Oregon will begin to use e-mail and the CM/ECF system to electronically serve court orders, minute orders, schedule changes, and other informational materials to registered attorneys in pending criminal cases. Paper notification of these documents will cease with the exception of appealable orders; the court will mail a hard copy of these documents to counsel of record in addition to the electronic version.

Attorneys without a business internet access capability may file for a temporary exemption from this requirement (See LR 83.1(e), LR100 and LR 3001) on the court's website at ord.uscourts.gov.

For more information about the CM/ECF system, or to register on-line, go to the court's CM/ECF website at ord.uscourts.gov/ecf/ecf.html.
